

Additive Component

Product Catalogue

CONTENTS

- 01 Passenger Car Engine Oil Additive
- 02 Heavy Duty Diesel Engine Oil Additive
- 03 Hydraulic Oil Additive
- 04 Gear Oil Additive
- 05 2T /4T Engine Oil Additive
- 06 Industrial Transmission Oil Additive
- 07 Metalworking Oil Additive

Passenger Car Engine Oil Additive

- CheMost manufacture specially designed for passenger vehicle lubricants, meeting the requirements of various API grades.
- Excellent lubrication protection for gasoline engines and enhances fuel economy.

- CheMost-PA3088P SP Gasoline engine oil additive package
- CheMost-PA3066N SN SM Gasoline engine oil additive package
- CheMost-PA9944G Universal engine oil additive package

Heavy Duty Diesel Engine Oil Additive

- Heavy duty diesel engine oil additive package can meet the usage requirements of heavy-duty diesel engines.
- It effectively controls the formation of deposits and keeps the engine interior clean.

- CheMost-PA3077K CJ-4 CK-4 diesel engine oil additive package
- CheMost-PA3055H CH-4 CI-4 diesel engine oil additive package
- CheMost-PA9944G Universal engine oil additive package

CheMost

Hydraulic Oil Additive

- Designed for the formulation of hydraulic oils.
- Excellent anti-wear performance and rapid water separation capabilities.
- By properly combining antioxidant, rust inhibitor, metal deactivator and other functional additives, it achieves comprehensive performance.

- CheMost-PA555 Fire-resistant hydraulic oil additive package(HFC)
- CheMost-PA50899 Fire-resistant hydraulic oil additive package(HFDU)
- CheMost-PA5000 Low-zinc anti-wear hydraulic oil additive package
- CheMost-PA5201 Anti-wear hydraulic oil additive package
- CheMost – PA5202 Ashless zinc free hydraulic oil additive package

Gear Oil Additive

- CheMost-PA4001-Versatile gear oil additive package
- CheMost-PA4001S Liqui moly gear oil additive package
- CheMost-PA4400M-Liqui moly worm gear oil additive package

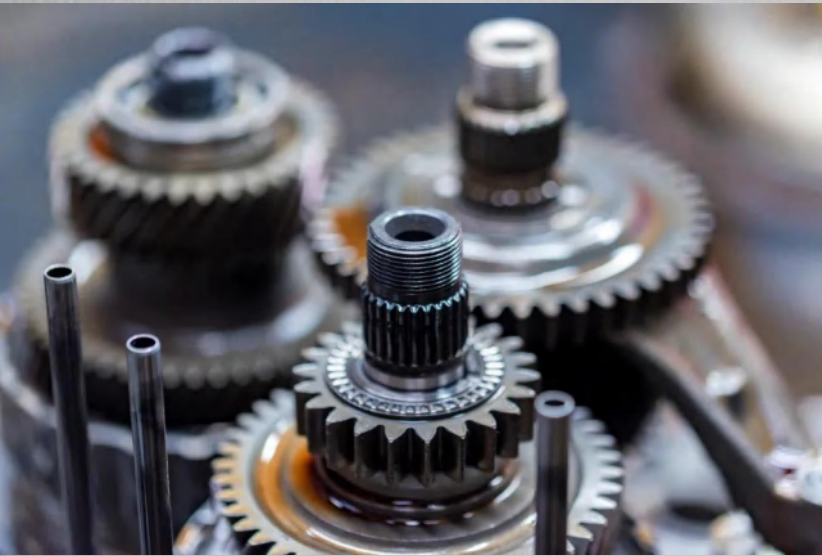

2T /4T Engine Oil Additive

- Viscosity index improver, as VII, can improve the viscosity–temperature properties, and it is an important additive in the preparation of multi–grade lubricating oils.

- CheMost–PA2200 2T Oil additive package
- CheMost–PA4400 4T Oil additive package

Industrial Transmission Oil Additive

- CheMost-PA6000 Compressor oil additive package
- CheMost-PA6001 Turbine oil additive package
- CheMost-PA6032 Heat transfer oil additive package
- CheMost-PA6077 Ashless slideway hydraulic oil additive package

Metalworking Oil Additive

- CheMost-PA7000 Quenching oil additive package
- CheMost-PA8000 Emulsible oil additive package
- CheMost-PA9000 Cutting oil additive package

A microscopic view of numerous bubbles of varying sizes, colored in shades of blue and yellow, set against a light background. The bubbles are arranged in a dense, overlapping pattern, creating a textured, cellular appearance.
